

2021 Seasonal Requirements for Declaration of Health

This document is to be completed prior to the breeding season by the walk on farm or owner and covers all mares from your property for the 2021 season. Without this document mares will not be accepted.

Owners who agist their mares at other farms are to pass this document on to them for completion.

Should there be a change in circumstances relating to disease or health on your farm please advise our office prior to visiting the farm.

Farm & Address:

Contact Name:

Contact Number:

Have mares (and foal if applicable) been at the above address for the last 30 days? YES NO

If **NO** please
provide details:

By signing this document you are stating that:

You have checked each mare's respiratory rate and her temperature and they are within normal ranges prior to departure to Spendthrift Australia. The mare (and foal) are free of any symptoms of infectious disease or illness and do not demonstrate any clinical signs of abnormal behaviour or discomfort, nasal discharge or scouring.

You confirm that there has been no incidence of Hendra Virus on your farm or evidence of flying foxes sighted on the property of origin or within the immediate local area.

You confirm that there has been no incidence of EHV-1 on the property of origin or within the local area.
